

## What are the most critical actions for effective teamwork in the operating room?

We are looking for OR team members (any profession, trainee or non-trainee) and surgical patients to help us identify the most critical actions for effective teamwork by completing this online survey.

This survey is the first of a two-round Delphi survey. It will take approximately 15 minutes to complete each round and if you complete all rounds, you can choose to be entered into a draw for a **\$100 (CAD) Amazon gift card**.

A large proportion of surgical patient complications can be prevented with improved teamwork in the operating room (OR). We would like to make good teamwork easy for healthcare professionals by developing a comprehensive, standardized, structured and actionable set of teamwork behaviours that is both feasible and acceptable to perioperative stakeholders.

Your participation in this survey and your individual responses will remain confidential.

By completing this survey, your **consent to participate in this study is implied**.

Click here to complete the survey: <https://www.surveymonkey.com/r/TIPdelphi>

**We request your responses be completed by JANUARY 16<sup>TH</sup>, 2022.**

Thank you in advance for your participation.

Sincerely,

Dr. Sylvain Boet, Principal Investigator  
Associate Professor, University of Ottawa  
Department of Anesthesiology Pain Medicine, Department of Innovation in Medical Education  
Hyperbaric Medicine Unit, The Ottawa Hospital,  
Scientist, Ottawa Hospital Research Institute
